

HARJEET SINGH PANNU

GAME DESIGNER • AI-DRIVEN SYSTEMS • INTERACTIVE EXPERIENCE DESIGN

Mumbai, India | +91 7259466505 | harjeetpannu2004@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech graduate in Electronics & Communication Engineering from VIT Chennai (CGPA 9.5+/10) with a strong interest in game design at the intersection of artificial intelligence — designing systems where intelligent behavior, adaptive rules, and player experience come together. Hands-on experience building AI-driven perception and decision systems reflects a systems-design mindset relevant to procedural content, adaptive difficulty, and dynamic NPC behavior. Ranked #79 of 76,886 participants worldwide in the WorldQuant Quantitative Championship 2025, reflecting strong analytical thinking. Completed a 6-month Research Analyst internship at JPMorgan Chase, sharpening structured thinking and communication. Seeking an entry-level Game Design role focused on AI-driven systems and interactive experience design.

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co. — Commercial & Investment Banking Division

Jan 2026 – Jun 2026

CRG Research Analyst Intern

Mumbai, India

- Conducted structured research and analysis, translating complex information into clear, actionable insights for senior stakeholders.
- Authored reports and presentations reviewed across a global organization, strengthening storytelling and communication skills.
- Applied analytical frameworks to identify patterns and trends within large, complex datasets — a habit of systems-level thinking.
- Collaborated within fast-paced, cross-functional, global teams, adapting quickly to new tools, domains, and problem sets.

EDUCATION

Vellore Institute of Technology (VIT), Chennai

2022 – 2026

B.Tech, Electronics & Communication Engineering

CGPA: 9.5+ / 10.0

- Academic Excellence Award — Top Performer, B.Tech ECE

Apeejay School, Kolkata

2021 – 2022

CBSE Class XII

Percentage: 98%

Podar International School, Aurangabad

2019 – 2020

CBSE Class X

Percentage: 96%

SKILLS & COMPETENCIES

Game & Systems Design: Systems Design, Game Mechanics & Balancing, Procedural & Adaptive Systems, Player Experience Design, Prototyping & Pitching

Game AI: NPC Behavior Design, YOLOv8, OpenCV, TensorFlow, Machine Learning

Technical Toolkit: Python, C++, Git, VS Code

Analytical: Quantitative Research, Data Analysis, Problem Solving

AI & SYSTEMS DESIGN PROJECTS

IntelliWeed — Autonomous AI Perception & Decision System [\[Brochure\]](#) [\[Demo\]](#)

- Designed the perception-to-action rule system for an autonomous robot — real-time detection driving decisions, 90% accuracy, 40% less labor — the same structure used for adaptive NPC and enemy AI design.

Smart Plant Health Monitoring System — Adaptive Environmental System

- Designed a rule-based system where sensor input dynamically drove irrigation and alerting logic, improving water-usage efficiency by 50% — the same dynamic, condition-driven design approach used in in-game resource and economy systems.

Smart Multi-Biometric UPI Payment Authentication System

Patent Under Review

- Designed a multi-layered authentication architecture, applying systems-thinking and UX design principles to a security-critical product.

ACHIEVEMENTS & CERTIFICATIONS

- WorldQuant Quantitative Championship 2025 — Global Rank #79 of 76,886 participants [\[Award Certificate\]](#) [\[Rank Certificate\]](#)
- Academic Excellence Award — Top Performer, B.Tech ECE, VIT Chennai
- 1st Runner-Up, Pitch-A-Thon — pitched IntelliWeed live against 70+ teams [\[Certificate\]](#)
- International Research Finalist — ICDTSA Conference [\[Certificate\]](#)
- Patent Under Review — Smart Multi-Biometric UPI Authentication System

LEADERSHIP & EXTRACURRICULAR

Sponsorship & Outreach Lead — Fraternity of Young Innovators (FYI)

- Led industry outreach and corporate sponsorships for the club, developing stakeholder management and pitching skills.
